- Bills
- STRIPS
- All SEK instruments

*Note: Premium Service fees do not compound to the standard execution fee schedule

US Treasury Bonds

Tradeweb will automatically adjust dealer quotes and final transaction prices in the amount of the execution fee set forth below for all multi-dealer inquiries and trades on a decimal, discount, and yield basis, as applicable.

US Treasury Coupon & TIPS

- **<=5 Yrs Mty Outright:** **\$3.35/MM**
- **>5 Yrs Mty Outright:** **\$4.00/MM**

US Treasury Swaps (Longer maturity billed):

- **<=5 Yrs Mty Outright:** **\$3.35/MM**
- **>5 Yrs Mty Outright:** **\$4.00/MM**

US Treasury BFLY: (Middle maturity billed):

- **<=5 Yrs Mty Outright:** **\$3.35/MM**
- **>5 Yrs Mty Outright:** **\$4.00/MM**

US Treasury BILLS: **0.0005 (discount rate)**

US Treasury STRIPS: **0.0001 (YIELD) ****

****The market convention for STRIPS is to round to the all in decimal price to 3 decimal places. As such, in some cases (depending on the maturity and yield of the trade), the execution fee adjustment to the yield- based dealer quote on STRIPS (i) may not result in a change to the all-in decimal price, or (ii) may mean that the rounding to the third decimal place of the price will result in a change to the all-in settlement amount of the security that is greater than the theoretical value of 0.0001% yield.**

Please Also Note: For pre-auction When Issued (WI) Coupons and (WI) TIPS, the appropriate execution fee is transposed into a yield percentage and added to the dealer quote; therefore, the eventual all-in decimal price (rounded to 4 decimal places) will vary depending on the maturity of the Coupon or TIP, as applicable, and as such, the corresponding execution fee may vary (higher or lower) slightly from the above-stated fee for post auction Coupons or TIPS.

IG/HY Credit Portfolio Trading

Tradeweb automatically adjusts responding dealer quotes per line item, in the amount of fees set forth below. In all cases, the quote seen on the screen is the all-in transaction price – clients will not receive an invoice
